Range Work Day April 15th

Early spring is the one of those times that the club really needs your help. The range has been without work crews for the majority of the winter and there is a lot of clean up to do. This April workday would be a great time to get that workday credit completed and behind you for the year. Take advantage of the good spring weather and help the club get set for a very busy shooting season.

We will be working on the different things and if the weather has allowed the weeds to grow we will be also doing grounds maintenance. So bring your assortment of tools, along with rakes, weed whackers and "whatever."

Randy Hansen

Electrical and Plumbing Expertise Needed:

Mike Maurer will be contacting "special members" for the next workday to fix electrical and plumbing items at the range.

If you have these "special skills" please contact Mike and "beat him to the phone call." Repairs are needed on electrical items on the rifle range and a bit of plumbing work is needed in the restrooms.
